HOLY LOVE

Holy Love 5:39

Intro: As we look to the light within, we embrace our life purpose and that is to love, to be the expression of love and to ascend to the highest degree of love.....to Holy Love.

Blind, couldn't see
Lost my way
Then you came to me
You awakened up my view
The world took on a different hue
The clarity that I had sought
Was given me, oh when you brought
Holy Love, Holy Love
A blessing sent from up above
There was a plan before my birth
Manifesting now on earth
You are my fate, my destiny
You're where I was meant to be
You're my warmest hand to hold
Universal laws unfold
When you give
Holy Love, Holy Love
A blessing sent from up above
You are my thoughts, my prayers, my own
You're my spirit overflow
You are my soul, my inspiration
My joy, my hope, and my salvation
Like the angels singing sweetly
You define me, you complete me

You're my
Holy Love, Holy Love
A blessing sent from up above
You are my peace, my harmony
You're what is good inside of me
You are my truth, you are divine
What is seen when I let my light shine
I have the key, my second chance
You are the Lord of my dance
You're my
Holy Love, Holy Love
A blessing sent from up above
No more doubts, now no more fear
Certain I was meant to be here
Gentle arms protect me, tenderly enfold me
Filling my heart with joys untold and
A sacred presence everywhere
With willing heart I want to share my
Holy Love, Holy Love
Such a blessing sent from up above
And I thank you for
Holy Love, Holy Love

Music: Katelyn Hart Lyrics: Mary Wanser

OUR DIVINITY

You Had Me at Namaste' 5:21

Ooh, oh yeah...Ooh, yeah

I searched for logic in many faiths
I experimented along the way
Felt disconnected and out of place
But when you opened up the door
I sensed a presence I'd never felt before

You had me at Namaste'
In that moment I was home to stay
Now it's in my heart to say
I honor your divinity

One road ended here
A new journey had begun
You showed me I have wings
Oh, my most sacred one
You helped me to fly
On to higher things
Beyond where I could reach yesterday

You recognized God in me
Took me into your family
What you saw in me
I see mirrored in your eyes
Yes, I am divine

You had me at Namaste'
In that moment I was home to stay
Now it's in my heart to say
I honor your divinity

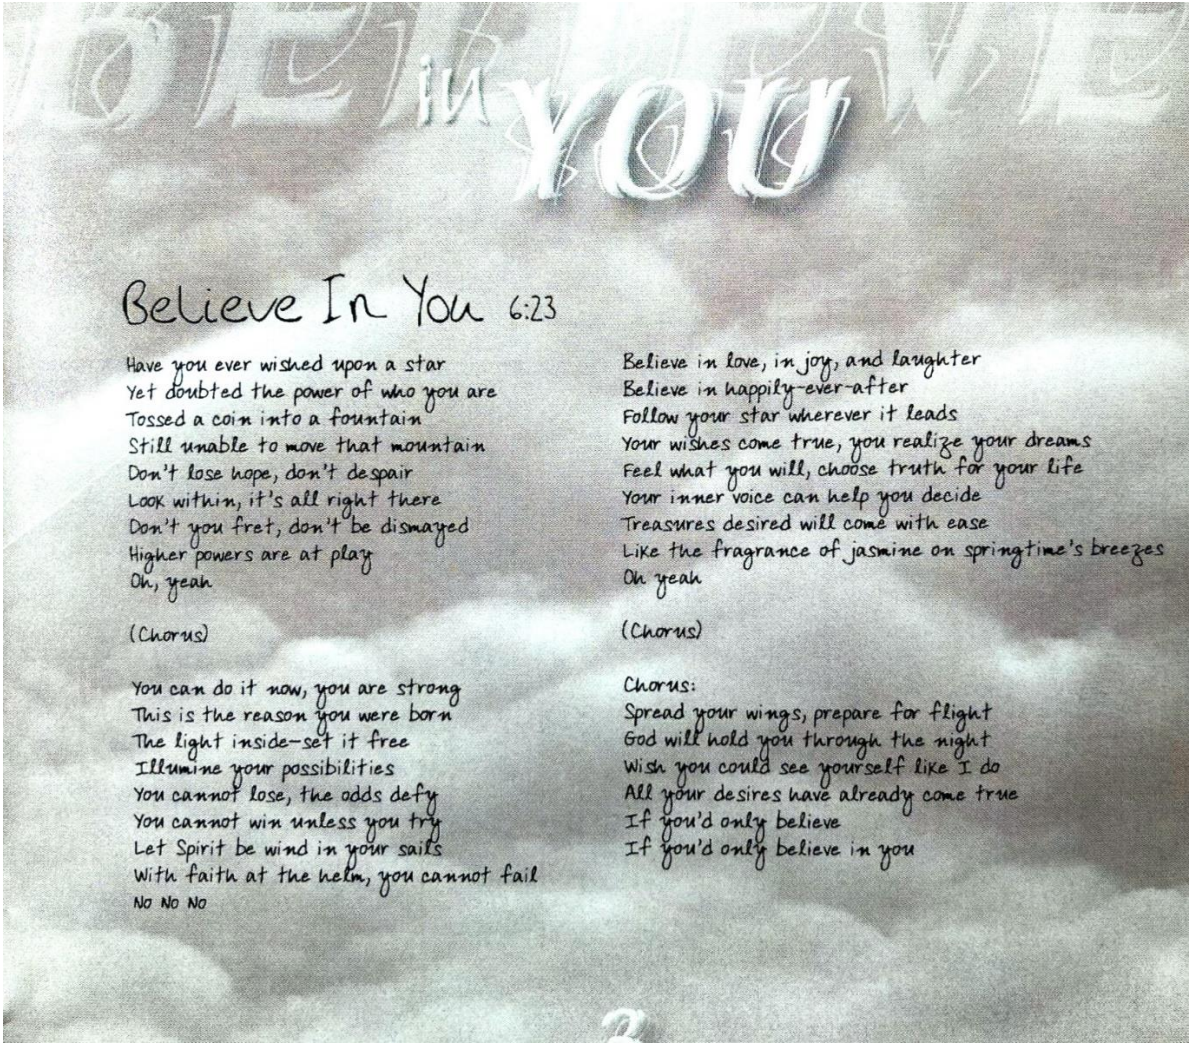

You had me at Namaste'
Namaste'

You had me at Namaste'

Ooh, yeah...Ooh, oh yeah

Namaste'

Namaste' pronounced as "Namastay" means:
'I recognize that within each of us is a
place where Divinity dwells, and when we
are in that place, we are One. I honor
the divine in you.'

Believe In You 6:23

Have you ever wished upon a star
Yet doubted the power of who you are
Tossed a coin into a fountain
Still unable to move that mountain
Don't lose hope, don't despair
Look within, it's all right there
Don't you fret, don't be dismayed
Higher powers are at play
Oh, yeah

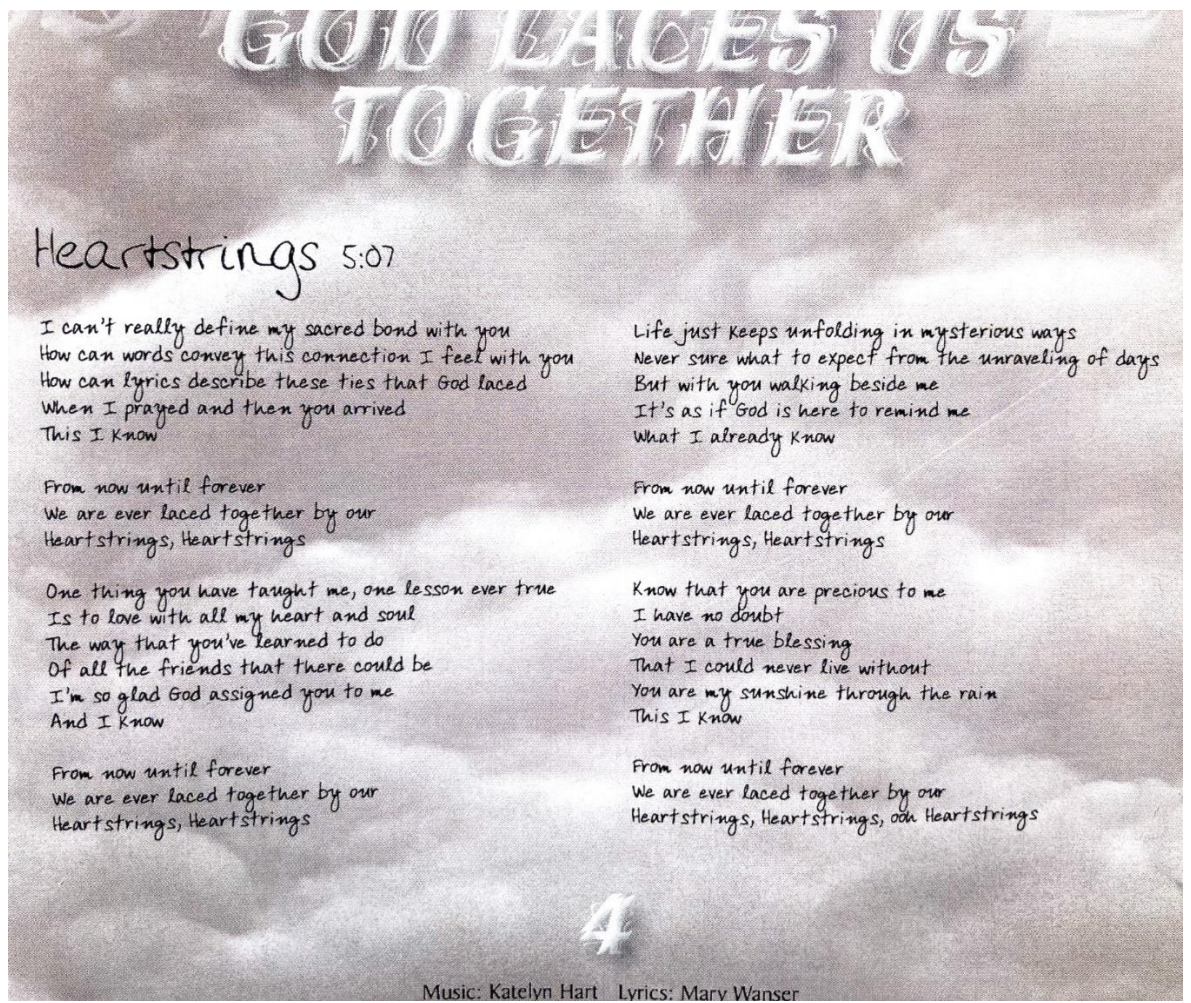

(Chorus)

You can do it now, you are strong
This is the reason you were born
The light inside-set it free
Illumine your possibilities
You cannot lose, the odds defy
You cannot win unless you try
Let Spirit be wind in your sails
With faith at the helm, you cannot fail
No No No

Believe in love, in joy, and laughter
Believe in happily-ever-after
Follow your star wherever it leads
Your wishes come true, you realize your dreams
Feel what you will, choose truth for your life
Your inner voice can help you decide
Treasures desired will come with ease
Like the fragrance of jasmine on springtime's breezes
Oh yeah

(Chorus)

Chorus:
Spread your wings, prepare for flight
God will hold you through the night
Wish you could see yourself like I do
All your desires have already come true
If you'd only believe
If you'd only believe in you

GOD LACES US TOGETHER

Heartstrings 5:07

I can't really define my sacred bond with you
How can words convey this connection I feel with you
How can lyrics describe these ties that God laced
When I prayed and then you arrived
This I know

From now until forever
We are ever laced together by our
Heartstrings, Heartstrings

One thing you have taught me, one lesson ever true
Is to love with all my heart and soul
The way that you've learned to do
Of all the friends that there could be
I'm so glad God assigned you to me
And I know

From now until forever
We are ever laced together by our
Heartstrings, Heartstrings

Life just keeps unfolding in mysterious ways
Never sure what to expect from the unraveling of days
But with you walking beside me
It's as if God is here to remind me
What I already know

From now until forever
We are ever laced together by our
Heartstrings, Heartstrings

Know that you are precious to me
I have no doubt
You are a true blessing
That I could never live without
You are my sunshine through the rain
This I know

From now until forever
We are ever laced together by our
Heartstrings, Heartstrings, oh Heartstrings

SOULMATES

The Awakening 4:24

Things are coming back to me now
From somewhere long ago
Pictures of what used to be
When our love began to grow

Like photographs pressed into a book
I turn the page and look into your eyes
And I knew the first time I ever saw your face
We traveled on from another place in time

Familiar strangers is what we are
Your voice, your laugh, well I'd heard it all before
And when our hearts speak, I get such a warm feeling inside
Something I felt before, perhaps in another life

Sealed when we were soulmates

5

Lyrics: Mary Wanser Music: Katelyn Hart

Back When We Were Soulmates 3:19

Back when we were soulmates
I remember dancing on the stars
Oh yes, that's who you are

We carved our names in the moon
Looking down on earth
I think it was the month of June

We made our plans for a sacred rendezvous
To share our love later on earth, like soulmates do
Back when we were soulmates

So many times our paths have crossed
Each path seems to toss us back together again
'Cause we know that forever we are friends and soulmates

I remember you now though I'm not sure how
Since I've never met you in this lifetime 'til now
Our spirits recognized each other right away
As if I'd seen you only yesterday
Could it be we are soulmates?

Things are coming back to me now

Things are coming back to me now

I remember you

In this grand universe, we have been assigned
to this divine fellowship as traveling companions,
as soulmates.

ONE LOVE ONE SPIRIT

It's All One Love 5:50

When we stop and think about it, are we really all that different?
When you need a friend, does it really matter what their faith is?
I'm here for you, you're there for me
We care for each other and that's a family

It's All One Love
It's All One Love
It's all one Spirit, one God who made us all
(Repeat Chorus)

Division among us, isn't it a shame?
Focusing on our differences
and not seeing how we are really all the same
We are all the essence of magnificence
It's all one love and it is divine

(Chorus)

We will all close our eyes one final time
Will we then see we're the same
Will we then open our minds
Then will we see that it's all one love?

It's all one Love
It's all one Spirit, one God who made us all

So take my hand, let us stand
Take my hand, let us stand

Let us sing that it's all one love
It's All One Love
It's all one Spirit, one God who made us all

It's All One Love
